Our Privacy Philosophy

Welcome.

Before we talk about legal terms and privacy laws, we'd like to tell you something a little more important.

We believe your personal information belongs to you.

Our goal is to collect only the information we need to provide our services, improve them, communicate with you when necessary, and meet our legal obligations. We do not believe in collecting information simply because technology makes it possible.

We also believe privacy policies should be understandable by ordinary people.

If something is important enough to affect your privacy, it deserves to be explained clearly—not hidden in fine print or buried behind legal jargon.

That's our promise to you.
